

# Visually Impaired Program

Family Service Agency's Visually Impaired Program is a new program to support individuals who are 60 or better and struggling with blindness or vision loss. These services are free to eligible residents!

\* This is an informative flyer met for those who are not visually impaired

## Who is eligible?

All Genesee County residents who are legally blind, have low vision, or are experiencing functional or progressive vision loss and 60 years old or better.

## Visually Impaired Services Include:

### Social Work Consultation

Social Work supports in the following areas:

- Engage in supportive casework
- Coordinate services and resources
- Provide emotional support to client, families and friends.
- Disseminate information to clients and staff
- Educate and outreach in the community

## Independent Living Skills

Teaches skills to adjust to blindness and low vision using adaptive techniques and devices. Topics will be personalized to meet each clients needs.

## Support Group

The emotional aspect of losing vision is often the most difficult to overcome. Support groups offer a wide range of topics to encourage individuals to share and support one another through difficulties.

## Adaptive Aids Support

Low vision and adaptive aids will be identified and provided as needed.
